How to be a sustainable print professional

Top tips for meeting your business' sustainability goals with print and scan

brother at your side

01.

Recycle cartridges

Return your used ink and toner cartridges back to the supplier to recycle.

With Brother it's free.

02.

Save energy

Select energy efficient devices with power saving or automatic sleep modes.

03.

Increase lifecycle

Choose durable products where modular repairs can be carried out to extend their lifecycle and help reduce devices sent to landfill.

04.

Reduce paper waste

Use print release, pull-print functionality and automatic 2-sided print to cut wastepaper.

05.

Help colleagues

Train colleagues on sustainable printer and scanner use, from recycling cartridges to wastepaper.

Speak to us today to find out more on how you can print and scan more sustainably.
