Solution Brief

Defend Against Threats with SIEM Plus XDR Workshop

Organisations today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems.

Do you know how many phishing attacks your organisation has received? If employees are using the right password protocol? Whether personal data is being exposed? In short, is your organisation's cloud environment as secure as you think it is?

With a Defend Against Threats with SIEM Plus XDR Workshop, we can help you develop a strategic plan customised for your organisation and based on the recommendations of Microsoft experts in security. You'll gain visibility into immediate threats across email, identity, and data with Threat Check, plus clarity and support on how to upgrade your security posture for the long term.

Our partner

Microsoft

Learn how to put next generation Microsoft security tools to work for you.

What to expect

During this workshop, we'll partner with you to strengthen your organisations approach to cybersecurity. We'll help you better understand how to prioritize and mitigate potential attacks, with:

- Deep analysis of cyberattack threats that are found targeting your organisation.
- Actionable recommendations to help immediately mitigate the identified threats.
- A detailed assessment of your IT and security priorities and initiatives, direct from cybersecurity professionals.
- An inside look at Microsoft's holistic approach to security, and how it relates to your organisation.
- Demonstrations of integrated security, including the latest tools and methods.
- Long-term recommendations from Microsoft experts a bout your security strategy, with key initiatives and tactical next steps.

Why you should attend

Given the volume and complexity of identities, data, applications, devices, and infrastructure, it's essential to know how secure your organisation is right now, and how to mitigate and protect against threats. At the end of the workshop you will be able to:

Identify current, ongoing security threats in your cloud environment.	Walk away with actionable next steps based on your specific needs and objectives.	Document your security strategy for the benefit of key stakeholders.	Better understand how to accelerate your security journey using the latest tools.

When it comes to compliance, you need an experienced partner. For more information or to get started, please contact your Insight Account Manager.
