|                                | Account delegation                  | Delegate account viewing, sending, or modifying permissions to a different person, such as when someone is on vacation or leaves the company.                                                |                |                                     |                                       | ● |
| Core features                  | Prepare forms                       | Automatically add signature and business fields to documents before sending using Adobe Sensei intelligence, or create your own custom form fields.                                          | ●              | ●                                   | ●                                     | ● |
|                                | Sign                                | Let recipients click on a link to open and sign—no downloads or sign-ups needed.                                                                                                             | ●              | ●                                   | ●                                     | ● |
|                                | In-person signatures                | Use the Acrobat Sign mobile app to get handwritten signatures from others in person.                                                                                                         | ●              | ●                                   | ●                                     | ● |
|                                | Track and manage                    | Track responses, get email notifications, and send reminders from anywhere.                                                                                                                  | ●              | ●                                   | ●                                     | ● |
|                                | Keep records                        | Store signed documents and audit trails securely, and send copies to all parties automatically.                                                                                              | ●              | ●                                   | ●                                     | ● |
|                                | Scan and sign on mobile             | Use your mobile device camera to turn paper documents into crisp, clear e-documents before sending to others for signature.                                                                  | ●              | ●                                   | ●                                     | ● |
|                                | Cross-device signature capture      | When signing from a nontouch-enabled computer, easily add a handwritten signature by sending a text message to your mobile device.                                                           | ●              | ●                                   | ●                                     | ● |
|                                | Written signature workflow          | Print, sign, scan, and return documents without a fax machine. Get the accuracy, authentication, and auditability of electronic signing, even when working with handwritten signatures.      | ●              | ●                                   | ●                                     | ● |
|                                | Digital signatures                  | Comply with the most demanding signature laws and regulations. Signers use certificate-based digital IDs to verify their identity using desktop or cloud-based digital signatures.**         | ¶              | ¶                                   | ●                                     | ● |
|                                | Stamps                              | Let participants add a visible business stamp to your document or form, such as a "Received" stamp, a company seal, or a personalized Hanko stamp in Japan.                                  | ●              | ●                                   | ●                                     | ● |
|                                | Simple e-signature authentication   | Invite people to sign by sending an email, and optionally ask for a password before signing.                                                                                                 | ●              | ●                                   | ●                                     | ● |

\* Knowledge-based authentication is available in the United States only; additional fees apply.

† Up to 50 recipients at a time with Acrobat Pro, or 300 at a time with Acrobat Sign Solutions for business or enterprise.

‡ Requires free add-in from Microsoft AppSource.

§ Requires free Adobe Acrobat for Google Drive add-in from Google Workspace Marketplace.

¶ Requires Acrobat for enterprise VIP.

\*\* Cloud-based digital signatures are only available in Acrobat Sign Solutions for business and Acrobat Sign Solutions for enterprise.
