

# 5 reasons why Surface is your best asset on site and in the office

## Versatility

Whether you're providing a detailed client presentation or loading up plans on location and marking them up, Surface provides a solution that will enable you to boost productivity and effortlessly switch between different contexts.

## Inking

Surface Go and Surface Pro have a PixelSense display that supports full touch and inking in the same aspect ratio as a sheet of paper for a seamless transition from analogue to digital. Take notes, draw diagrams, and underline crucial information with the inking feature.

## Deploy & Manage

Seamlessly deploy and manage PC's across your team. Saving you billable hours on IT and help-desk support

## Packed with Power

Whether you are using Sketchup, Auto-Cad, or Cost X, the Surface line is packed with the latest generation of Intel processors, ready to tackle whatever you throw at it.

## High Fidelity Conferencing

Surface has an amazing array of high fidelity cameras and microphones. Equipped and ready to help you, whether you are in a conference or on-site taking photos for a defect report.

## Why Insight

### Global Partner

Having recently won the Microsoft Worldwide Partner of the Year Award for Surface, we are more than well equipped to help guide you in your journey to understanding and utilising the power of Surface in your business.

### Warranty Support

We work hand in hand with the Microsoft post sales team to ensure any warranty claims for DOA, faulty devices and accessories are dealt with. Saving you the headache and helping you focus on what matters.

### Stock Supply

As a long-standing Microsoft Partner, Insight Australia has amazing relationships and partnerships with distributors, allowing us to successfully deliver the orders you need.

### Experts

At Insight we have a large and highly-trained team of Modern Workplace Experts that can help service your every need. We're here to provide you with the solutions you are after.
