

Empower your workforce

Rapid digital disruption is challenging the status quo in every organisation. To thrive in today's digital age, you need a connected workforce empowered with the right tools and relevant information to help them work smarter. Insight's Digital Workspace™ solution helps you do just that.

Transforming for the digital world

Transforming your business to compete in today's digital economy is more than just a technology refresh with the latest hardware, software, or cloud deployments. It's really about adapting to new ways of working and creating a strong digital culture.

But organisations struggle to engage their workforce with consistent digital experiences. Legacy tools, resistance to change, varying skillsets and low corporate transparency hamper productivity and prevent organisations prospering from new opportunities digital transformation brings.

The Insight Digital Workspace™ powered by Microsoft Office 365, intelligently streamlines daily interactions with contextual awareness and relevant information to enhance workforce productivity.

Benefits

- Intelligent, personalised workspace with relevant tools and information in one place.
- Contextual information keeps teams focussed on daily tasks.
- Low cost, on-demand, self-updating infrastructure futureproofs IT investment.
- Improved corporate transparency builds employee trust and engagement.
- Powerful analytics dashboard giving a comprehensive view of user adoption to inform and drive better employee engagement

All in one place

With the Insight Digital Workspace™, employees start their day with the right tools and the latest information all in one place. This cloud-based solution brings seamless workflows across Office 365 apps and services to create an immersive user experience .

- **Corporate news and updates** - Keep employees informed of relevant organisational news to build trust and transparency.
- **Tailored internal communications** - Engage staff with personalised news and content from a central point.
- **Relevant team workspaces, project documents and files** - Contextual awareness of project teams and activities provides one-click access to relevant workspaces and documents to speed up collaboration, reviews and co-authoring.
- **Personal workspace** - Presents a tailored, device-aware and uncluttered view of the all relevant Office 365 and third party apps
- **Contextual search tool** – Delivers relevant content related to the employee’s current activity or search terms including documents, email or social network posts.
- **One-click to connect** – Connect instantly from your personal workspace with colleagues or customers using messaging, audio and video calling, conferencing, or live sharing.

- **Upcoming events and quick links** - Plan, prioritise and prepare for the workday through immediate calendar visibility, easy access to popular internal sites or pages for daily work tasks.
- **Reliable mobile experience** – View important corporate updates on-the-go, collaborate with project teams remotely and securely access work files or third party apps from anywhere, anytime, on any device.
- **Powerful analytics** – Gain valuable insights across lines of business - monitor IT workflows, measure employee engagement or effectiveness of internal communications.
- **Drive adoption of Microsoft Teams** - with a powerful ‘single pane of glass’ interface across the corporate, team and individual workspaces.

Helping you work smarter

The Insight Digital Workspace™ is the perfect solution for all organisations considering a digital culture to drive greater employee engagement, enhanced business outcomes and future-proofs IT investment in the digital age.

Why Insight?

Making work experiences consistent across platforms, securing sensitive data and connecting your workforce – it’s a lot of complicated moving parts to consider while focusing on moving your business forward. T
